

HOSTING, MAINTENANCE & SUPPORT PACKAGES

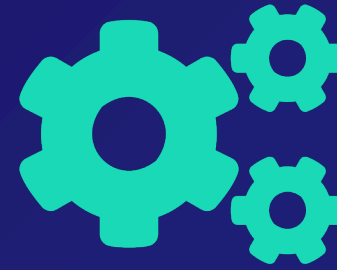

SUPPORT SERVICES

HELP DESK BY EMAIL, BY PHONE

ICL's dedicated in-house development team offer a one hour response service between 9am – 5:30pm, Monday – Friday and a monitored help desk evenings and weekends.

The team that will work on your project will be there for you, to support you once we've launched your new asset!

MAINTENANCE & SECURITY

Your application/website will be monitored by the third-party solution Pingdom. This service will notify ICL in the unlikely event that the website has become unresponsive and so triggering action to be taken to bring the application back up.

Your new application/website will require pro-active regular maintenance to ensure all security patches are installed and up-to-date.

CONTINUED DEVELOPMENT

ICL will work with you to produce a 1-3, 6, 12 and 24 month strategic road map.

We schedule a regular conference call (dependent on support package), allowing us to proactively provide new features to the website as and when needed.

SUPPORT PACKAGES

These packages are designed to be used **as a starting point only**.
Depending on your project's needs, a custom package will be created.

BRONZE SUPPORT

SILVER SUPPORT

BASELINE HOSTING, SECURITY & MAINTENANCE - £49.00 PER MONTH

- ✓ Hosting
- ✓ Maintenance
- ✓ Support by phone and email
- ✓ Back ups
- ✓ Discounted add-ons
- ✓ Single point of contact
- ✓ One monthly fee

Through proactive account management we will work with you to ensure your new website keeps up with your organisation's objectives. Super fast dedicated resource virtual hosting. All our servers are in the UK and backed up daily, meaning we can dip in to a back up in the past whenever needed to retrieve your website if needed.

We include all the monthly reactive and pro-active maintenance and support you will need.

You will be able to call our team in the office any time to get support. New feature requests are quoted for separately as required using an agreed day rate.

ENTERPRISE HOSTING, SECURITY & MAINTENANCE

Depending on project requirements, recommendations are made on which path to take. ICL's network is formed of two data centers one in Newark, Nottingham and the other in Central London. This means we can provide high resilient specialist hosting solutions.

WHAT IS SEO?

SEO (Search Engine Optimisation) is the process of improving your website so it appears higher in search engine results when people search for products or services like yours. The better your SEO, the more potential customers can find your business organically without paying for adverts.

WANT MORE BUSINESS? TRY A 60 DAY PPC CAMPAIGN

PPC (Pay Per Click) is a form of online advertising where your business pays only when someone clicks on your advert.

BRONZE
